# Complete tape solutions for the Corrugated Industry

## Corrugated Plate mounting tape

| Adhesive Properties | Colour Code | Thickness mm/inch | PVC – Film | Liner |
|---|---|---|---|---|
| tesa® 52310 | transparent | 0.0039 inch 0.10 mm | colourless-transparent | PP |
| tesa® 52320 | white | 0.0078 inch 0.20mm | colourless-white | PP |
| tesa® 52330 | cream | 0.0149 inch 0.38 mm | colourless-cream | creped paper |

The high adhesion and good shear resistance of these tapes ensure that there is no plate movement or edge lift problems, even at high speeds and on extended print runs. On demounting, there are no adhesive residues on the plate or the cylinder.

**tesa ® 52310** is also especially well suited to the mounting of photopolymer plates on compressible sleeves.

**tesa ® 52320** plate mounting tape for photopolymer plates in flexographic printing

**tesa ® 52330** is especially well suited to plate mounting in corrugated board postprint, due to its ideal adhesive characteristics and optimal backing properties.

## Splicing Tape Double-sided splicing tape

| Product Line | Colour | Thickness | Backing | General Conditions |
|---|---|---|---|---|
| tesa® 50607 PV41 | translucent | 120µm | Non-Woven | Splicing for Corrugated |

## Closing Tape Double-sided box closure tape with fingerlift

| Product Line | Colour | Thickness | Backing | General Conditions |
|---|---|---|---|---|
| tesa® 61970 | translucent | 220µm | PP film | Closing of self-adhesive mail order boxes, CD and book carton |
| tesa® 61346 | sustainable | 185µm | Paper | Secure transport closing & recyclable paper-based packaging |

## Tear Tape tear strip

| Product Line | Colour | Thickness | Backing | General Conditions |
|---|---|---|---|---|
| tesa® 51344 Tear Tape | sustainable | 220µm | Paper | For medium grades of corrugated board and heavy envelopes |
| tesa® 51230 PV1 | | 90µm | MOPP | medium grades of solid board and two-ply corrugates board |

## Reinforcing Tape Bidirectional polyester filament reinforcement tape

| Product Line | Colour | Thickness | Backing | General Conditions |
|---|---|---|---|---|
| tesa® 50060 Flexible | | 175µm | PET-fibre BOPP | Inner or outer reinforcement |
| tesa® 51345 | sustainable | 220µm | Paper | Reinforce critical stress areas. Side hole handles, flap handles etc |

## Edge Sealing Tape Fineline tape for design painting

| Product Line | Colour | Thickness | Backing | General Conditions |
|---|---|---|---|---|
| tesa® 4244 PV0 | | 110µm | PVC Film | Masking & Design |
| tesa® 60404 Coloured | Various | 67µm | PVC Film | Adhesive film to securely seal boxes |

## Packing Tape Superior paper packaging tape

| Product Line | Colour | Thickness | Backing | General Conditions |
|---|---|---|---|---|
| tesa® 4903 Packing Tape | sustainable | 140µm | Paper | Ideal for the sealing of cardboard boxes |

## Printers Friend Silicone coated roller wrapping tape with embossed surface

| Product Line | Colour | Thickness | Backing | General Conditions |
|---|---|---|---|---|
| tesa® 4863 PV3 Printers Friend | | 620µm | Silicone-coated cloth | Roller wrapping in manufacturing and printing processes |
